

MENTALISM

The Mind-reading experiments will blow your mind away!

"Mentalism" is a form of "mental magic experiments" that produces spectacular results, the spectators have the feeling that the artist possesses power of the "sixth sense". The effects presented in the show are the results of a mixture of real skills such as: psychology, induction, memory techniques and clever tricks of illusion.

Our aim is to bring the audience into a kind of limbo between reality and fiction, to delineate the boundaries. Oscar & Lilette focus the entertainment on the "power of the human mind", so mysterious and unusual, with the assistance and testimony of the public for the realization of some expressing how, "Hypnosis", "reading of thought Telepathy", "bending metal" with the help of the mind" and the Telekinesis properties of moving objects with mind power (the art of moving objects without physical contact). An elegant and mysterious spectacle, performed by a couple of artists experts, leaving the audiences astonished and amused.

Recommended: For an adult public.

Duration: 45 minutes.
